Now that the bolshevists have taken Warsaw, the Polish capital, they will probably be referred to as bolshevictors.

The cost of food and clothing will be advanced, of course, by the increased railroad rates, for the consumer pays the freight. But it ought to be somebody's business to see to it that the increase in prices does not exceed the increase in freight charges. If that is done the increase to the average consumer will be negligible. But if the seller adds the freight increase and a hundred per cent more for good measure, as is usually done when taxes are raised, the consumer will feel the increase appreciably. Let us have no profiteering on the increased freight rate.

We often wonder whether the people are interested in the sayings and doings of the Presidential candidates to the extent of reading everything that is printed in the daily press. At times it seems that a candidate for the highest office in the gift of the American people cannot turn around without having the incident telegraphed all over the country. When they go anywhere the people are advised as to the mode of travel, where stops are made and the persons encountered en route. It is all right to publish the speeches of the candidates and the interviews they give out from time to time, but to go into the smallest details is a bit tiresome to the average reader, we think.

Buckingham

The price of sugar gone tumbling to 26 cents. And a merchant offered to sell me as much as 100 pounds. Excellent Western sides selling for 20 cents retail; lard 28c; corn meal retailing at $2.35 a bushel instead of $2.50. And other things must come down in proportion, unless we are to suffer loss.

Mr. Mathew Taylor has the banner watermelon crop, so far as heard from; he has 500 hills and expects to realize $500 from their sale.

No one ever saw corn and tobacco crops advance more rapidly than they have done during the past week; as yet very few tobacco worms have made their appearance.

Peaches are ripe and ripening, and prices vary from $1.00 to $1.50 and up as high as $2.50 a bushel; excellent grades have sold for $1.50.

Mrs. George Walker Newton died at her home near Bethlehem church last week, after an illness of many months.

The annual meeting is in progress at the big tabernacle near here.

Mr. Stephen Anderson has advertised his household goods for sale at his home near here; and I suppose that means he will not come to his home here to live again.

Dr. T. H. Lacy has been conducting a revival meeting at Emanuel church the past week; we all enjoy hearing this good man and good preacher.

The friends who have been so nice to Mrs. George Walton must not forget to remember her again in a substantial way. She is very feeble and nearly blind; but don't you wish you were as sure of entering the kingdom of heaven as she is?

The hand of death has surely fallen among us this year—J. Lee Coleman, Wm. E. McCraw, John T. Oliver, Clifford I. Taylor, Rev. John J. Spencer—none of them very old men, but all gone on.

It makes one feel bright and chirpy, though, to see the many bright and happy faces of the young people.

The expert doctors who were here to make a free examination told one of my friends that two of his children were on the verge—so to speak — of consumption.

This is a fine time to sow rye and other grains and grasses to get fall and winter pasture.

Miss Ella Moseley, accompanied by her niece, Miss Minnie Rogers, came home from Atlanta on Sunday last, where she had been for treatment at one of the Atlanta hospitals.

There was all day preaching at Mulberry Grove church on Sunday, and some of the crowd that usually go to the big tabernacle attended services there

Miss Mary E. Moss, who has had fever, is getting well and we hope to soon see her out.

Mrs. W. F. Horner, who was before her marriage Miss Maud Jones, was extremely ill at Stuart Circle Hospital, Richmond, last Friday, and all of her brothers and sisters were there except two.

The colored people have conducted a big meeting at Fork Union church at this place the past week.

At this writing no principal has been secured for the high school here; but the officers are hoping to secure a man this week.

Maysville district school board will meet here at 3:00 o'clock August 23rd.

Petty's Fork

Mr. John Marshall, of Lynchburg, spent last week with home folks.

Mrs James Martin and Miss Bessie Martin spent Saturday afternoon in the home of Mrs. W. T. Nash.

Miss Fettie Ford, of Lynchburg, spent Sunday with her parents, Mr. and Mrs. T. H. Ford.

Miss Lelia Jones spent Sunday afternoon with Misses Maggie and Laura Nash.

Mr. and Mrs. Lacy Ferguson, of Lynchburg, are visiting his parents, Mr. and Mrs. Hop Ferguson, near Chap.

Miss Mary Marshall and her brother, John, are visiting in Richmond.

Mrs. E. G. Godsey, of Roanoke, spent Sunday with Mrs. W. T. Nash.

Miss Della Inge returned home last Wednesday, after spending some time with Misses Laura and Maggie Nash.

And still it rains, but crops are looking very well, corn especially.

Almost time for school again. Wonder who our teacher will be?

We are all glad to welcome the smiling face of Mrs. Robert Marshall again. She has been on an extended visit to her daughter in Pennsylvania.

Little Miss Mary Overton, of Brookneal, is visiting at her grandparents here.

Mr. T. H. Ford has about completed his new home here. He is a hustling man, we must all admit.

Mr. R. C. Marshall, of Ohio, has been visiting relatives in this county.

Want Work Done On Concord Road

Yesterday morning Judge A. E. Chamberlain, manager of the production and marketing bureau of the chamber of commerce, and R. G. Robertson went to Rustburg to see the Campbell county board of supervisors about making the road between Lynchburg and Concord passable for farmers until such a time as the State Highway Commission gets funds with which to permanently repair the road. The State Highway Commission has $200,000, to use in 1920 and 1921 on the road to Petersburg and it will take all of that to fix two stretches, one east of Farmville and one west of there.

The State Commission is making it a point not to "patch" any road and make a permanent job of it. In 1922 the Commission expects to have $200,000 more to spend on the road to Concord and until that time it is hoped that some means may be devised to get money enough to keep the road at least passable enough so that tobacco and other crops may be hauled over it this fall.

Road Supervisor Booth from Concord was in Lynchburg last week and called on Mr. Robertson with a view of getting aid from Lynchburg to make the absolutely urgent and necessary repairs to the road which would permit traffic from eastern Campbell and Appomattox counties.

At the meeting of the board of supervisors, from which Judge Nelson was absent, members of the county board asserted that they knew of no funds they could use, but the county treasurer stated that an examination of his books showed that there was some where in the neighborhood of $2,000 which could be used.

It was understood from representatives of citizens from Concord that the people of that place would look into the matter of finances and that probably something definite would be done towards raising the needed money. With the assistance of probably $250 from Lynchburg, it is believed that the road can be made passable and kept so until the State can do something with it. —News

EVER BILIOUS?

Charleston, Miss.—Mrs. R. V. Heins, of this place, says: "I have never had to use very much medicine, because if I felt headache, dizziness, or colds, bad taste in the mouth, which comes from torpid liver, I would take a dose or more of Black-Draught, and it would straighten me out and make me feel as good as new. We have used in our family for years

THEDFORD'S
BLACK-DRAUGHT

and it certainly is the best liver medicine I ever saw. It has not only saved me money, it has helped keep my system in shape, and has never weakened me as so many physics do. I recommend it to my friends and am glad to do so." Black-Draught is the old, reliable liver medicine which you have doubtless heard much about. When you feel badly all over, stomach not right, bad taste in your mouth, bilious, or have a headache, try Thedford's Black-Draught. At all Druggists.

Think what depends on your tubes

They are almost as important as your tires. Yet few men watch tube service.

Miller builds the finest tubes that have ever been developed. For 24 years Miller has specialized in super-grade rubber goods.

Miller builds more surgeons' gloves, for instance, than any other concern in the world. And that's the sort of skill required in tubes.

Miller Tubes are built of thin sheets of pure rubber. They are built layer on layer—sheet on sheet—up to the proper ply.

Then each tube is tested for hours under air pressure to make sure it is air-tight.

You don't get such tubes when you buy tubes by guess. Come and try a Miller Tube, red or gray. Watch its service. After that you'll never buy an ordinary tube.

Millers cost no extra price.

reased Railroad Rates Will Boost Auto Business

The opinion is openly exssed by a number of people t the increase in railroad senger travel is going to st the automobile business oughout the United States e gentleman has said that in future when it is incum t upon him to make a trip Richmond with his family will use his automobile and e money by the transac The advance in passen rates will not be felt in rt trips very materially, but when several hundred es are to be traveled. It to be said, however, that increase soon to be added passenger fares is small in parison to the increase e by the government when railroads were taken over rious to government con a mileage book, good for 0 miles, could be purchased $30. With one stroke of pen this was raised to $30 the war tax. According e ruling of the Interstate mmerce Commission, the rates will remain in effect the year 1922. At that e the rates will remain in ct or be reduced. This deds on business conditions the country. In the event there is anything like a rn to normal conditions, we may look for a reduction in cost of passenger travel.—iew.
